

Dear guests,

Your security is our priority.

In view of the recent events, Crystal Club has implemented the following measures for your safety.

The rooms and the common areas will be cleaned with disinfectants to destroy all bacteria.

Hydroalcoholic gel will be available throughout the hotel for regular hand disinfection.

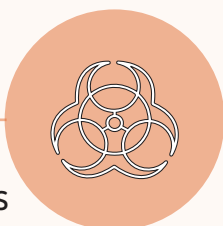

Three-ply surgical masks will be available to customers.

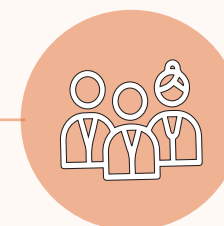

A doctor will be available throughout the stay.

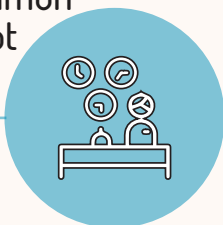

In order to allow freer movement among our guests as well as more space in the dining rooms, the lobby and other common areas, 15% of our rooms shall not be marketed.

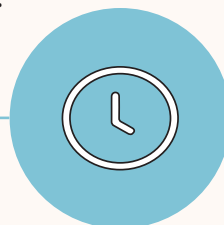

A special team will ensure the strict compliance of hygiene rules both in the kitchen and in the common areas at all times.

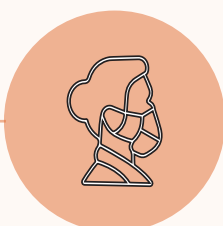

Minyanim will be scheduled at four different times.

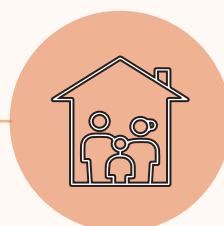

Dinner will be served at two different hours..

All health measures will be strictly upheld by our staff members at all time.

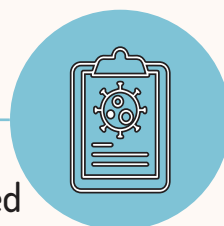

We will try to minimize the travel of our staff outside the hotel during the entire stay.

Each guest (or their legal representative) must sign a declaration, stating that they and their family members have not had any Covid-19 related-symptoms during the 21 days preceding their stay.

This announcement as well as further notices will be displayed throughout the hotel in order to keep everyone alert.

Let us all do our part to act safely and responsibly so that all of the guests can enjoy their well deserved vacation!

Wishing you a wonderful stay
The Crystal Club
